**REQUEST FOR CERTIFICATE OF  
CORRECTION PURSUANT TO 37 C.F.R. 1.323**

Dear Sir:

Transmitted herewith is a Certificate of Correction for U.S. Patent 7,670,720, issued March 2, 2010. Upon reviewing the patent, the patentee noted that the wrong Abstract was printed by the Patent and Trademark Office, which should be corrected and replaced as follows:

An electrochemical energy storage means with at least two electrodes and an electrolyte, a carrier material for the electrolyte being disposed between the electrodes, and the carrier material including a porous material in whose inner pore structure a perfluorinated surface-active substance is present.

As to the error, a review of the text as originally filed confirms that the error was made in the printing of the patent.

Since the error for which a Certificate of Correction is sought was a result of a Patent and Trademark Office error in printing, no fee is due (35 USC 254).

Respectfully submitted,

A handwritten signature in black ink, appearing to read 'Allan M. Wheatcraft', written over the typed name.

Allan M. Wheatcraft, 36,307
